Upgrade to the KOSÉ Shareholder Special Benefit Program

KOSÉ Corporation has made the following upgrade to the special benefit program for shareholders.

1. Reason for revising shareholder special benefits

KOSÉ gives shareholders a selection of its products every year based on the number of shares held. The purposes are to thank shareholders for their support and give shareholders a better understanding of business operations.

In response to the opinions and requests of shareholders, KOSÉ will start giving shareholders a number of options for the products they receive.

In addition, KOSÉ is establishing a long-term benefit for investors who have been shareholders for at least three years for the purpose of encouraging people to hold KOSÉ stock for a long time.
