1. Overview of Results of Operations

(1) Results of Operations

The Japanese economy for the fiscal year ended March 31, 2017 (hereinafter "the period under review") saw moderate recovery on the back of economic policies and monetary policies implemented by the government. On the other hand, given the apprehending background such as slowdown in China and other emerging economies, the UK's decision to leave the EU, and the economic developments stemming from the new administration coming into office in the US, the outlook for the Japanese economy still remains uncertain.

In the educational services sector, in which we operate, the business environment remains challenging due to the intensifying competition with industry peers given persistent declining trend in the number of children per household, diversification of service offerings, and competitions across business formats.

Against such backdrop, With us Corporation (hereinafter, "the Company") and its subsidiaries and associates (hereinafter collectively, "the Group") have worked hard to improve service qualities in accordance with the corporate vision "to become an outstanding educational institution capable of fostering people who will be successful in their carrier The Group also made effort to improve its service offerings through provision of services adapting to the changes of time and by developing new business models.

In order to achieve sustainable growth in our main stay gakushu-juku and high school and careers support business segments, we vigorously reinforced our services within the dominant areas to increase our market share within the area, opened 11 new schools (one of which was made a subsidiary of the Company), expanded the facilities of the three relocated schools and one school whose floor space was increased, and proceeded with scrap-and-build process with eight consolidated schools. In addition, as part of the diversification of service offerings, the Company has implemented measures such as promoting English-language education courses designed to master the four skills (listening, speaking, reading, and writing), setting up programming schools for elementary school children by anticipating the needs of the time, expanding education services by utilizing audio-visuals supported by ICT, and cross-industry partnerships aimed at nurturing specialists.

Furthermore, as a measure to further expand our scope of business activities going forward, we have developed our ICT-enabled education solution, entered into new business fields such as inbound business in Japanese-language education and language services such as translation and interpretation. During the period under review, the Company acquired shares of N.I.S. Co. Ltd., a Japanese-language education service provider within Nagoya (an operator of I.C. NAGOYA), followed by acquisitions of shares of Kikko Corporation, provider of translation and interpretation services and specialists staffing services, and the shares of Genki Global, Inc., provider of Japanese-language education services within Fukuoka and Tokyo, making these companies a wholly-owned subsidiary of the Company.

As a result of the above measures of an upfront investment nature, which we implemented as part of a growth strategy for the future, net sales for the period under review amounted to 14,313 million yen (up 4.6% year-on-year) with operating profit of 629 million yen (down 44.8% year-on-year), ordinary profit of 653 million yen (down 44.0% year-on-year) and profit attributable to owners of parent of 112 million yen (down 79.2% year-on-year).

Reportable segment performance is described as below.

1) Gakushu-juku business

In the business of gakushu-juku school operation (that provides private extra classes), we have offered our teaching faculty more intensive training than ever for lessons of higher quality to enhance our competitiveness and develop skilled human resources, while thoroughly implementing the plus-cycle study method evolved from the EMS program, our exclusive approach to stimulating the desire to learn. Furthermore, we have added new service offerings to the traditional instruction formats. Specifically, we have created new business formats responding to the changes of the times by increasing the variety in English speed reading courses and online English courses for elementary school students as stepped-up measures for English-language skills; opening courses to prepare for entrance examinations of public integrated middle and high schools; opening MedSUR, a

medical university entrance-exam school that offers completely individualized tutoring; offering attractive optional courses for elementary school students such as a science experiment class and a programming class.

During the period under review, we newly opened nine schools, relocated three schools, consolidated seven schools, and the number of schools totaled 172. However, as the consolidation of five schools at the end of the previous fiscal year had an adverse effect on the enrollment, the average number of students enrolled during the period under review was 18,657, down 3.2% year-on-year.

As a result of the above efforts, net sales of the segment amounted to 8,068 million yen (up 0.2% year-on-year) with operating profit (segment profit) of 1,013 million yen (down 21.3% year-on-year).

2) High school and careers support business

As for the high school and careers support business, we have drawn upon our distinctive features as a correspondence high school fully to promote ICT-enabled education. Along this line, we lend tablet terminals to all our students so that they can access audio and visual lectures online and also prepare and submit papers and manage the progress of their coursework online in an integrated manner.

Curriculums are becoming harder every year and the Company is developing education system by taking in active learning methods with the aim to "increase students' motivation to study" and to "retain their academic skills." Such efforts have been recognized and the Company was awarded "EdTech Special Award' for the 13th E-learning Grand Prize" at the 2016 E-learning Award Forum. In addition, our "Being Connected to Society" course, a course designed to foster communication skills and ability to discover issues that will become necessary after the students finish school and begin their career by focusing on "global standard" and "diversity," received recognition as well as the lecture by Ms. Nadya Kirillova titled "Diversity is what makes it interesting," giving us the honor of winning "Special Jury Prize" of the "Global Education" category in 2016 Global Education Contest sponsored by Japan International Cooperation Agency ("JICA").

Furthermore, by forming alliances with partners from different industries in order to help nurture specialists in a variety of fields, we have so far offered many different courses, ranging from those in show business in partnership with Watanabe High School managed by Watanabe Entertainment (which belongs to Watanabe Production Group) and sports to cosmetology, creation and pet care.

During the period under review, we opened two new schools (one of which was made a subsidiary of the Company), and consolidated one school. The number of schools totaled 38. The average number of students enrolled during the period under review was 6,747 (up 6.5% year-on-year) due to the increase in number of correspondence high school students and the solid performance of the Japanese-language education service provider, N.I.S. Co. Ltd., which began to contribute to the Group's business results on a full-scale basis from the current period. As a result, net sales of the segment totaled 4,481 million yen (up 7.2% year-on-year) with operating profit (segment profit) of 667 million yen (down 5.2% year-on-year).

Genki Global, Inc., which is a Japanese-language education service provider made a wholly-owned subsidiary of the Company during the fourth quarter of the period under review, will contribute to the Group's operating results from the next period.

3) Other businesses

The other businesses segment, consisting mainly of preschool education, advertising business, ICT education and skill development business, in-house training portal site content development and sales business for corporate clients, and language services business, reported net sales of 1,764 million yen (up 21.8% year-on-year), and operating profit (segment profit) of 93 million yen (down 10.8% year-on-year).

We made Kikko Corporation a wholly-owned subsidiary of the Company during the second quarter of the period under review and expanded our business into the field of language services that include interpretation and translation services and specialists staffing services.

Kikko Corporation has received very high international recognition in the field of interpretation and translation business. It carries specialists to provide services covering 90 languages in the world. Some of its recent

engagements include inauguration ceremony of President Trump, President Obama's speech in Hiroshima, Prime Minister Abe and President Obama's speech at Pearl Harbor, professional baseball player Ichiro's interview upon achieving record, and other simultaneous interpretation and audio translation services provided mainly to TV stations in Tokyo. Its performance results began contributing to the Group's operating results from the fourth quarter of the period under review.

(2) Financial Condition

Total assets were 12,652 million yen at the end of the fiscal year under review, an increase of 851 million yen compared with the end of the previous fiscal year. This was attributable mainly to increases of 114 million yen in notes and accounts receivable-trade, 596 million yen in goodwill, 171 million yen in other (in intangible assets), and 118 million yen in insurance funds, which are partially offset by a decrease of 265 million yen in cash and deposits.

Total liabilities increased 878 million yen to 7,713 million yen. This was attributable mainly to increases of 196 million yen in short-term loans payable, 199 million yen in income taxes payable, and 240 million yen in advances received.

Total net assets decreased 27 million yen to 4,939 million yen. This was attributable mainly to an increase of 172 million yen in revaluation reserve for land and a decrease of 234 million yen in retained earnings.

(3) Cash Flows

The balance of cash and cash equivalents (hereinafter referred to as "net cash") as of the end of the period under review decreased 283 million yen year-on-year to 4,263 million yen as a result of below mentioned cash flows.

Cash flows during the period under review and major components were as follows:

Cash flows from operating activities

Net cash provided by operating activities was 1,178 million yen in the period under review, compared with 899 million yen provided in the previous fiscal year. This was due mainly to an increase of 84 million yen in advances received, as well as the adding back of depreciation of 371 million yen and impairment loss of 275 million yen as non-cash expenses.

Cash flows from investing activities

Net cash used in investing activities was 1,193 million yen in the period under review, compared with 544 million yen provided in the previous fiscal year. The result was attributable mainly to payments of 207 million yen for purchase of property, plant and equipment, 769 million yen for purchase of shares of subsidiaries resulting in change in scope of consolidation, and 151 million yen for purchase of insurance funds.

Cash flows from financing activities

Net cash used in financing activities was 268 million yen in the period under review, compared with 746 million yen used in the previous fiscal year. The result was attributable mainly to proceeds from short-term borrowings of 940 million yen, which was more than offset by repayment of short-term loans payable of 763 million yen, repayment of long-term loans payable of 210 million yen, and redemption of bonds payable of 110 million yen.

| Interest coverage ratio (times) | - | 18.3 | 64.8 | 51.8 | 132.1 |

Notes: Indicators are calculated as follows:

- Ratio of shareholders' equity to total assets: Shareholders' equity / Total assets
- Ratio of shareholders' equity to total assets (market value basis): Market capitalization / Total assets
- Cash flows to debt ratio: Interest-bearing debt / Operating cash flow
- Interest coverage ratio: Operating cash flows / Interests payments
- 1. All indicators are calculated based on consolidated figures.
- 2. Market capitalization is calculated by multiplying the closing share price at the period end by the number of shares outstanding at the period end (less treasury shares).
- 3. The operating cash flows used in these calculations are net cash flow provided by operating activities stated in the consolidated statement of cash flows. Interest-bearing debt is the aggregate of those liabilities on the consolidated balance sheet that incur interests. Interest payments are that stated as "Interest expenses paid" on the consolidated statement of cash flows.
- 4. The cash flows to debt ratio and interest coverage ratio are not shown for the fiscal year ended March 31, 2013 because operating cash flows were negative in this fiscal year.

(4) Outlook

In our view, the economy will continue its moderate recovery backed by the uptrend in corporate earnings and improvements in employment conditions. However, as consumer spending recovery lacks strength, competition among companies is becoming more severe, and with the prevailing uncertainty, we expect that the education services industry will continue to face challenging business environment.

In such environment, the Group will strive to enhance its corporate value through offering a broad range of educational services to diverse customers with continued focuses on 1) enhancing customer satisfaction, 2) strengthening service quality, 3) redesigning the service lines and developing new business formats, 4) expanding the scope of business activities, 5) strengthening development of human resources and management capability, and 6) rebuilding the intra-Group synergies, in accordance with the corporate vision "to become an outstanding educational institution capable of fostering people who will be successful in society."

During the next fiscal year ending on March 31, 2018, for our mainstay gakushu-juku and high school and careers support business segments, we implement measures such as extending the time spent on attending customers, popularizing the plus-cycle study method, offering our teaching faculty more intensive training for improved customer satisfaction, equipping the faculty with ICT-based teaching support system, improving the quality of audio-visual lectures and other measures. Also, there are 17 new schools (of which two are made a subsidiary of the Company) scheduled to open, a record number of schools to be newly opened in a single year. These will contribute to the Group-wide growth. In addition, as a measure to address the globalization, we have added two companies to the Group during the period under review. The businesses of the two, Kikko Corporation providing language services including translation, interpretation, and specialists staffing services, and Genki Global, Inc., providing Japanese-language education services, will help expand the business domain of the Group and their business results will begin to contribute to the Group on a full-scale basis from the next period. Furthermore, by realizing intra-Group synergy at an early point and gaining support of Japan's top interpreters and translators, we aim to establish our original English-language education to address the changes in

English-language education in Japan.

In the next fiscal year ending March 31, 2018 we will continue to implement growth strategy measures such as securing and cultivating human resources, enhancing facilities, M&A, and capital and business alliance. Through these measures, the Group expects net sales of 15,856 million yen (up 10.8% year-on-year), operating profit of 1,016 million yen (up 61.3%), ordinary profit of 883 million yen (up 35.2%), and profit of 272 million yen (up 141.5%) on a consolidated basis.

Cautionary statement with respect to forward-looking statements and other special items

Forward-looking statements in this report are based on assumptions judged to be valid and information currently available to the Company. These materials are not promises by the Company regarding future performance. Actual results may differ significantly from these forecasts for a number of factors.

(5) Fundamental Policy for Allocating Earnings and Dividends for the Current and Next Fiscal Years

The distribution of earnings to shareholders is one of the most important priorities involving the management of With us. Our fundamental policy is to distribute a substantial amount of earnings to shareholders by paying a consistent dividend. At the same time, we will retain sufficient earnings to fund investments for future growth and responses to changes in market conditions as well as to maintain a sound financial position.

Based on these policies, we plan to pay a year-end dividend of 10.00 yen per share for the fiscal year ended March 31, 2017. With the interim dividend of 6.00 yen per share that was paid on December 6, 2016, this will result in a dividend of 16.00 yen per share applicable to the fiscal year ended on March 31, 2017.

With regard to dividends for the fiscal year ending March 31, 2018, we plan to maintain the amount of an ordinary dividend per annum of 16.00 yen per share, comprising the interim dividend of 6.00 yen per share and the year-end dividend of 10.00 yen per share.

Changes in Accounting Policies

(Application of Practical Solution on a Change in Depreciation Method due to Tax Reform 2016)

Following the revision of the Corporation Tax Act, the Company has applied the "Practical Solution on a Change in Depreciation Method due to Tax Reform 2016" (Accounting Standards Board of Japan (ASBJ) Practical Issues Task Force (PITF) No. 32, June 17, 2016) from the period under review, and changed the method for the depreciation of facilities attached to buildings and structures acquired on or after April 1, 2016, from the declining-balance method to the straight-line method.

The effect of this change on the consolidated financial statements for the period under review is insignificant.

Additional Information

(Application of Implementation Guidance on Recoverability of Deferred Tax Assets)

Effective from the period under review, the Company has applied the "Implementation Guidance on Recoverability of Deferred Tax Assets" (ASBJ Guidance No. 26, March 28, 2016).

Segment and Other Information

Segment information

1. Overview of reportable segment

Segments used for financial reporting are the Company's constituent units for which separate financial information is available and for which the Board of Directors performs periodic studies for the purposes of determining the allocation of resources and evaluating performance.

As a comprehensive educational services company, the With us Group conducts a broad range of business activities. Major business operations are exam preparation and assistance with academic courses for elementary school pupils and, junior high school and high school students, the management of wide-area correspondence high schools, and exam preparation services to help acquire various qualifications.

Consequently, the Group has two reporting segments that are based on types of education and types of students: the gakushu-juku business and the high school and careers support business.

2. Calculation method for net sales, profit/loss, assets, and other items for each reportable segment

The accounting methods for reportable segments are generally the same as those listed in "Basis of Presenting Consolidated Financial Statements."

Profits for reportable segments are operating profit figures. Inter-segment sales and transfers are based on market prices.

3. Information related to net sales, profit/loss, assets, and other items for each reportable segment
