Proposal No. 7: Revision of Compensation for Directors and Audit & Supervisory Board Members

At the 35th Ordinary General Meeting of Shareholders held on June 23, 2016, shareholders approved a resolution to limit annual compensation for Directors to 300 million yen (including a 25 million yen limit for Outside Directors) and at an Extraordinary Shareholders Meeting held on February 22, 2005, shareholders approved a resolution to limit annual compensation for Audit & Supervisory Board members to 50 million yen. There have been no subsequent revisions to these limits. Due to revisions to the compensation plan for Directors and Audit & Supervisory Board members and the termination of the retirement benefit plan for Directors and Audit & Supervisory Board members, ALCONIX is asking shareholders to approve new annual limits of 500 million yen for Directors (including a 50 million yen limit for Outside Directors) and 100 million yen for Audit & Supervisory Board members. These limits do not include the employee salary for Directors who concurrently serve as ALCONIX employees.

There are currently six Directors (including two Outside Directors). Please note that should the accompanying Proposal No. 2: Election of Seven Directors be approved and adopted in accordance with the original proposal, the number of Directors subject to this revision of the amount of remuneration shall be changed to seven (including two Outside Directors).

Proposal No. 8: Compensation for Granting Restricted Stock to the Directors (Excluding Outside Directors)

At the 35th Ordinary General Meeting of Shareholders held on June 23, 2016, shareholders approved a resolution to limit annual compensation for Directors to 300 million yen (including a 25 million yen limit for Outside Directors and not including employee salaries for Directors who serve concurrently as employees). At the 37th Ordinary General Meeting of Shareholders held on June 20, 2018, shareholders approved a resolution for the annual compensation to eligible Directors of restricted stock with an aggregate value of up to 40 million yen (not including the employee salary for Directors who concurrently serve as ALCONIX employees). The purposes are to provide an incentive for Directors (other than Outside Directors) to achieve the sustained growth of corporate value and align the interests of these eligible Directors with those of shareholders.

As part of the review of the compensation plan for Officers, if shareholders approve Proposal No. 6: Final Payment of Retirement Benefits upon Termination of Retirement Benefit Plan for Directors and Audit & Supervisory Board Members and Proposal No. 7: Revision of Compensation for Directors and Audit & Supervisory Board Members, ALCONIX asks shareholders to approve an annual limit of 80 million yen for restricted stock distributed to eligible Directors (not including the employee salary for Directors who concurrently serve as ALCONIX employees). Furthermore, ALCONIX asks shareholders to approve an increase in the annual limit on the number of shares of ALCONIX common stock that can be distributed as restricted stock compensation from 25,000 shares to 50,000 shares, with all payments of monetary compensation claims based on this proposal made using assets other than cash and eligible Directors receiving ALCONIX common stock that is newly issued or provided from treasury shares in accordance with resolutions of the Board of Directors.

There are currently six Directors (including two Outside Directors). Please note that should the accompanying Proposal No. 2: Election of Seven Directors be approved and adopted in accordance with the original proposal, the number of Directors subject to this revision of the amount of remuneration shall be changed to seven (including two Outside Directors).

Proposal No. 9: Issuance of Stock Options (Share Acquisition Rights)

In accordance with the provisions of Articles 236, 238 and 239 of the Companies Act, or the reasons explained below, shareholders are asked to approve the issuance of stock options (share acquisition rights) to the Company's Directors (excluding Outside Directors), Executive Officers and employees and to give the Board of Directors the authority to determine the offering terms of the stock options.

The implementation of this proposal requires that Proposal No. 7: Revision of Compensation for Directors and Audit & Supervisory Board Members is approved and adopted in accordance with the original proposal, thereby raising the annual compensation limit from 300 million yen to 500 million yen (within 50 million yen for Outside Directors). For only the one year period beginning on the day of this Ordinary General Meeting of Shareholders, shareholders are therefore also asked to approve a separate Director compensation of up to 10 million yen for the allocation of these stock options.

Currently there are four Directors (excluding Outside Directors). If Proposal No. 2 is approved as proposed, there will be five Directors (excluding Outside Directors).

1. Reason for need to grant share acquisition rights as stock option at favorable terms

The purpose to grant share acquisition rights is to achieve more growth in corporate value by further motivating Directors (excluding Outside Directors), Executive Officers and employees to improve the Company's performance.

2. Maximum number of share acquisition rights

854 units

This maximum number of share acquisition rights includes a maximum of 30 units to be granted to the Company's Directors within one year of this Ordinary General Meeting of Shareholders. The above number is the number of planned allotment; if the total number of share acquisition rights to be allotted is less than the number described above because not all of the share acquisition rights were subscribed to or for any other reasons, the total number of share acquisition rights to be issued shall be the total number of share acquisition rights to be allotted.

3. Exercise period of the share acquisition rights

From June 22, 2021 to June 21, 2029

4. Class and number of shares to be issued upon exercise of share acquisition rights

The class of the shares underlying the share acquisition rights shall be common stock of the Company, and the number of shares underlying the share acquisition rights (the "Number of Shares Granted") shall be 100 shares for each right. After the allocation of the share acquisition rights, if there is a split, gratis allotment or consolidation of the Company's common stock, the Number of Shares Granted will be adjusted by using the following formula. Any fraction of one share resulting from this adjustment is discarded.

Number of Shares Granted after adjustment =

Number of Shares Granted before adjustment x Ratio of the split or gratis allotment or consolidation

If there is a stock split or gratis allotment, the Number of Shares Granted after adjustment becomes effective on the day after the record date of the split or allotment. If there is a stock consolidation, the Number of Shares Granted after adjustment becomes effective on the consolidation date. However, if shareholders approve a proposal to reduce retained earnings and transfer the amount to capital or the capital surplus, then in the event of a stock split or gratis allotment with a record date for the split or allotment that is on or before the date of the shareholders meeting where this proposal was approved, the Number of Shares Granted after adjustment will be effective starting on the day after this shareholders meeting ends.

In the event of an absorption-type merger or a merger that results in the establishment of a new merged company and the share acquisition rights are passed on to the post-merger company, or in the event of an exchange of stock or transfer of stock resulting in the Company becoming a wholly owned subsidiary and the share acquisition rights are transferred to another company, the Company will adjust the Number of Shares Granted as needed based on the merger or other ratio.

When the Number of Shares Granted is adjusted, the Company must notify each holder of the share acquisition rights registered in the Share Acquisition Rights Register (the "Rights Holder(s)"), or make a public announcement, of the

required items by no later than the day before the Number of Shares Granted after adjustment becomes effective. However, if the Company is unable to perform this notification or public announcement by this day, a notice or public announcement must be conducted promptly afterward.

5. Values of assets to be contributed upon the exercise of share acquisition rights

Values of assets to be contributed upon the exercise of share acquisition rights per unit shall be the amount calculated by multiplying the amount to be paid per share granted upon the exercise of share acquisition rights (the “Exercise Price”) by the Number of Shares Granted. The Exercise Price shall be an amount obtained by multiplying the average closing price of the Company’s common stock in regular transactions on the Tokyo Stock Exchange for each day (excluding days on which no trading was reported) of the month preceding the month to which the allotment date of the share acquisition rights belongs, by 1.05 (with any fraction of one yen rounded up). However, if the Exercise Price is lower than the closing price (if there is no closing price, the most recent closing price prior to this date) of the Company’s common stock in regular transactions on the Tokyo Stock Exchange on the allotment date, the closing price on the allotment date shall apply. However, in the event of any of the following i, ii or iii, the value of the assets shall be the amount calculated by multiplying adjusted Exercise Price determined using the respective formula by the number of shares to be acquired upon exercise of each of share acquisition right. Fractions less than one yen of the adjusted Exercise Price are to be rounded up.

- i. If the Company conducts a stock split or consolidation

$$\text{Adjusted Exercise Price} = \text{Exercise Price before adjustment} \times \frac{1}{\text{Ratio of stock split/ consolidation}}$$

- ii.
