1. Qualitative Information on Quarterly Consolidated Financial Performance

Forward-looking statements are based on the judgments of the SERIO Holdings Group (SERIO Holdings and its consolidated subsidiaries) as of February 28, 2022.

SERIO Holdings has applied the Accounting Standard for Revenue Recognition (Accounting Standards Board of Japan (ASBJ) Statement No. 29, March 31, 2020) and other standards from the beginning of the first quarter of the current fiscal year. As a result, prior-year comparisons are based on figures in the previous fiscal year that use different accounting standards. More information is in "2. Quarterly Consolidated Financial Statements and Notes, (3) Notes to Quarterly Consolidated Financial Statements, Changes in Accounting Policies."

(1) Explanation of Results of Operations

In the first nine months of the current fiscal year (June 1, 2021 to February 28, 2022), the outlook for the economy remained unclear because of states of emergency and other safety measures as the pandemic continued.

There is no significant negative impact of the pandemic on the employment assistance business in part because of consistent demand at companies involving workforce flexibility. Although operations were suspended from time to time in the after-school day-care and nursery school businesses because of the pandemic, operations are gradually returning to normal. We continued to operate after-school day-care facilities and nursery schools while taking actions to prevent infections in order to meet the child care needs of working parents and guardians. In December 2020, the Japanese government announced a New Child-raising Confidence Plan that has the goal of establishing an infrastructure of nursery schools for approximately 140,000 children by the end of 2024. Demand for child care is increasing because of the rising percentage of women in the workforce and demand is expected to continue to climb.

During the first nine months, we continued to take actions aimed at creating jobs in order to provide an even larger number of people with opportunities to work while caring for children. We also continued to strengthen the administrative infrastructures of the after-school day-care and nursery school businesses to accommodate the growth of these two operations.

Sales increased because of the contribution to sales of after-school day-care facilities and nursery schools that opened in April 2021. The application of the new revenue recognition standard raised sales by 5 million yen. Operating profit decreased primarily for two reasons. First is higher than in the first nine months of the previous fiscal year when operating hours of after-school day-care facilities were reduced significantly and the number of nursery school children decreased because of the pandemic. Second is up-front expenditures associated with the receipt of large orders in the employment assistance business.

As a result, net sales in the first nine months increased 11.7% year on year to 6,786 million yen. Operating profit was 208 million yen, down 29.7% and ordinary profit was 211 million yen, a decrease of 29.4%. Profit attributable to owners of parent decreased 31.0% to 137 million yen.

Business segment performance was as follows.

1) Employment assistance

As a company dedicated to enabling people to continue working while caring for a family, we are a source of jobs that enable more women to work in a manner that matches each stage of their lives. We submit proposals to companies in a variety of industries for personnel support that makes it possible to reduce expenses by using people in the most productive ways possible. There was a large volume of sales activities during the first nine months of the fiscal year with no difficulties despite the pandemic due to the use of online sales meetings and the gradual recovery in the number of opportunities for face-to-face sales meetings.

Segment sales increased because of an increase in orders from current customers and large orders for operating public-sector call centers. Segment profit decreased because of increases in the cost of sales and selling, general and administrative expenses that were the result of hiring salespeople for the new child care worker placement business and up-front expenditures associated with new orders from the public sector.

As a result, net sales of this business were 2,042 million yen, up 4.2% year on year, and segment profit was 72 million yen, a decrease of 26.0%.

2) After-school day care

We are continuing to operate after-school day-care facilities while strictly following the guidelines for protection against COVID-19 infections in order to allow people to use these facilities with confidence. During the first half of 2020, all elementary schools in Japan were closed and there were other actions in response to the pandemic. Since then, there have been no large-scale school closings even during states of emergency or the enactment of other pandemic safety measures.

As of July 2021, there were 13,416 children on waiting lists for after-school day-care facilities nationwide according to the Ministry of Health, Labour and Welfare. Although this is slightly lower than one year earlier, the number of children registered at these facilities increased by 37,267 from one year earlier to a record-high 1,348,275. This growth demonstrates the consistently strong demand for after-school day-care services.

The number of after-school day-care facilities operated by the SERIO Holdings Group at the end of February 2022 was 133 for public facilities (operated for local governments), 10 for private elementary schools and one in the private sector. The result was a total of 144, an increase of one from the end of the previous fiscal year. Preparations are under way to open more locations beginning in April 2022.

Sales increased because of the inclusion of the sales of 10 locations opened during the previous fiscal year. Due to the new revenue recognition standard, this segment has started using more reasonable estimates of progress with fulfilling obligations to provide services and then using these estimates to recognize sales in specific periods. Earnings decreased as the return to normal operations following the impact of the pandemic in the previous fiscal year raised personnel expenses.

As a result, net sales of this business were 2,092 million yen, up 13.0% year on year, and segment profit was 91 million yen, a decrease of 31.4%.

3) Nursery schools

Although some nursery schools temporarily closed because of the pandemic, operations are gradually returning to normal. We continued operating nursery schools while taking numerous actions to protect children and instructors from infections in accordance with government guidelines.

As of April 1, 2021, there were 5,634 preschool children in Japan who were waiting for a nursery school opening. This is a decrease of 6,805 from one year earlier probably because parents are reluctant to use nursery schools during the pandemic. As the percentage of women who have jobs climbs, demand for child care is remaining very strong. The number of children using nursery schools and other care facilities has increased to 2,740,000, 4,712 more than one year earlier.

The number of children using SERIO Holdings Group nursery schools has been increasing steadily. At the end of February 2022, there were 23 certified nursery schools, 11 small certified nursery schools, three nursery schools for companies, and three community child development support facilities, a total of 40 locations. There was no increase in the number of locations during the first nine months, but preparations are under way to open more locations beginning in April 2022.

Sales benefited from the increasing number of children at nursery schools newly opened in places where there is not enough nursery school capacity to meet demand. An increase in the number of children at existing locations also contributed to strong sales growth. Nursery school earnings increased even though the return to normal operations caused personnel expenses to increase. However, segment profit was down because of higher selling, general and administrative expenses at SERIO Garden Co., Ltd., which operates a greenery business for nursery schools and other schools.

As a result, net sales of this business were 2,650 million yen, up 17.1% year on year, and segment profit was 166 million yen, a decrease of 2.0%.

(2) Explanation of Financial Position

Assets

Total assets at the end of the third quarter decreased 108 million yen from the end of the previous fiscal year to 4,387 million yen. This was mainly due to decreases of 274 million yen in cash and deposits and 45 million yen in buildings and structures, while there were increases of 163 million yen in accounts receivable-trade and contract assets and 109 million yen in construction in progress.

Liabilities

Total liabilities at the end of the third quarter decreased 202 million yen from the end of the previous fiscal year to 2,360 million yen. This was mainly due to decreases of 119 million yen in accrued expenses, 89 million yen in long-term advances received and 87 million yen in income taxes payable, while there was an increase of 116 million yen in provision for bonuses.

Net assets

Total net assets at the end of the third quarter increased 94 million yen from the end of the previous fiscal year to 2,026 million yen. This was mainly due to an increase of 137 million yen in retained earnings resulting from profit attributable to owners of parent and a decrease of 44 million yen in retained earnings due to payment of dividends.

(3) Explanation of Consolidated Forecast and Other Forward-looking Statements

There are no revisions to the fiscal year consolidated forecast announced on July 14, 2021 in "Summary of Consolidated Financial Results for the Fiscal Year Ended May 31, 2021." At this time, we believe that the pandemic will not have a significant negative effect on business operations and sales and earnings.

The consolidated forecast is based on assumption judged to be valid and information available when the forecast was announced. Actual results may differ from the forecasts for a number of reasons.

Going Concern Assumption

Not applicable.

Significant Changes in Shareholders' Equity

Following the resolution of the Board of Directors meeting on July 19, 2021, SERIO Holdings purchased 30,000 treasury shares of common stock on July 20, 2021 through an off-auction own share repurchase trading system (ToSTNeT-3) of the Tokyo Stock Exchange. In addition, following the resolution of the Board of Directors meeting on September 21, 2021, SERIO Holdings sold 21,373 treasury shares as restricted stock compensation on October 18, 2021. As a result, treasury shares amounted to 6,772 thousand yen as of the end of the third quarter of the current fiscal year.

Changes in Accounting Policies

Application of Accounting Standard for Revenue Recognition

SERIO Holdings has applied the Accounting Standard for Revenue Recognition (ASBJ Statement No. 29, March 31, 2020) and Implementation Guidance on Accounting Standard for Revenue Recognition (ASBJ Guidance No. 30, March 26, 2021) from the beginning of the first quarter of the current fiscal year. Based on these standard and guidance, revenue expected to be received in exchange for the provision of goods and services is recognized when the control of the promised goods and services is transferred to customers. The most significant change resulting from this application is in the after-school day-care segment, which now uses more reasonable estimates of progress with fulfilling obligations to provide services and then uses these estimates to recognize sales in specific periods.

For the application of the Accounting Standard for Revenue Recognition, in accordance with the transitional treatment prescribed in the proviso to Paragraph 84 of this standard, the cumulative effect of the retrospective application of the new accounting standard, if it is applied prior to the first quarter of the current fiscal year, is added to or subtracted from retained earnings at the beginning of the first quarter of the current fiscal year. The new standard is then applied beginning with this amount of retained earnings.

As a result, in the first nine months of the current fiscal year, net sales increased 5,725 thousand yen, cost of sales decreased 6,974 thousand yen, and operating profit, ordinary profit and profit before income taxes increased 12,700 thousand yen each. There is no effect of the application of the new standards on retained earnings at the beginning of the current fiscal year.

Due to the application of the Accounting Standard for Revenue Recognition, "accounts receivable-trade" in the current assets section of the consolidated balance sheet in the previous fiscal year is, from the first quarter of the current fiscal year, included in "accounts receivable-trade and contract assets." In addition, "advances received" in the current liabilities section is now "contract liabilities." In accordance with the transitional treatment prescribed in Paragraph 89-2 of the Accounting Standard for Revenue Recognition, no reclassification has been made to the prior year's consolidated financial statements to conform to the new presentation.

Application of the Accounting Standard for Fair Value Measurement

SERIO Holdings has applied the Accounting Standard for Fair Value Measurement (ASBJ Statement No. 30, July 4, 2019) and other standards from the beginning of the first quarter of the current fiscal year, and has applied the new accounting policies set forth by the Accounting Standard for Fair Value Measurement prospectively in accordance with the transitional treatment prescribed in Paragraph 19 of the Accounting Standard for Fair Value Measurement and Paragraph 44-2 of the Accounting Standard for Financial Instruments (ASBJ Statement No. 10, July 4, 2019).

There is no effect of the application of these standards on the quarterly consolidated financial statements.

Segment Information

- I. First nine months of FY5/21 (Jun. 1, 2020 Feb. 28, 2021)
- 1. Information related to net sales and profit or loss for each reportable segment

(Thousands of yen)

		Reportabl	e segment			Amounts shown on
	Employment assistance	After-school day care	Nursery schools	Total	Adjustment (Note 1)	quarterly consolidated statement of income (Note 2)
Net sales						
External sales	1,961,100	1,851,892	2,263,188	6,076,182	-	6,076,182
Inter-segment sales and transfers	-	-	-	1	-	-
Total	1,961,100	1,851,892	2,263,188	6,076,182	-	6,076,182
Segment profit	98,479	133,294	170,116	401,889	(105,562)	296,327
