Japan System Techniques Co., Ltd.

Notice of Relocation of the Tokyo Head Office

**A new value creation base for solving social issues that has a direct connection to
Takanawa Gateway Station**

Japan System Techniques Co., Ltd. (JAST) has decided to relocate its Tokyo head office during the fiscal year ending March 31, 2027 to THE LINKPILLAR 2, which is in Minato-ku and is part of the Takanawa Gateway City development of East Japan Railway Company (Head office: Shibuya-ku, Tokyo; President and CEO: Yoichi Kise; JR East).

This move to a larger office space will provide additional support for achieving the goals of continuous growth and a higher corporate value while taking actions based on JAST VISION 2035 (see note 1), which is JAST's new long-term vision.

■ Background

The businesses of JAST are guided by the corporate philosophy of “making society a better place by creating and providing new types of IT services.” Since its inception, JAST has acquired expertise in a broad range of industries and technologies to play a role in solving social issues. JAST has used head offices in Tokyo and Osaka since 2003. The move to the new location will provide space for the Tokyo head office to handle the growing scale of business operations and organizations.

The new head office will be in Takanawa Gateway City, which is a core district of an urban development project of the JR East Group that has the goal of using the community to create solutions that benefit the world and being a source of information for people worldwide.

The demand for software development has been increasing year after year. Upgrading the recruiting and training of software engineers is expected to strengthen software development capabilities and speed up the provision of social value generated by solving customers' problems and creating new markets.

■ Overview

1. New Tokyo head office

THE LINKPILLAR 2 (22-1 Takanawa 2-chome, Minato-ku, Tokyo)

The current location of the Tokyo head office is Taiyo Seimei Shinagawa Building 27F, 16-2 Konan 2-chome, Minato-ku, Tokyo

2. Date of relocation

During the fiscal year ending March 31, 2027

3. Details

The new Tokyo head office will be in THE LINKPILLAR 2, which has space for offices, stores, a medical clinic, a fitness gym and a child care support facility. The building has direct access to Takanawa Gateway Station.

Features include advanced environmental and energy technologies and disaster safety and security measures that increase the reliability of business continuity plans.

With these amenities, the building combines convenience and office functionality that allows diverse talent to demonstrate their capabilities. JAST is currently working on the layout of the new office to create an environment that improves productivity and fosters strong lines of communication among employees. Building a pleasant and productive workplace that supports human resource management activities is the overall objective.
