Business segment performance was as follows.

Reportable segments have been reclassified since the first quarter of the fiscal year ending December 31, 2025. Accordingly, figures a year earlier were reclassified in a new segment in the following year-on-year comparison.

Business Segment Sales

Total	7,872,819	8,336,175	100.0	5.9

Notes: 1. Sales exclude intersegment sales.

2. The year-on-year change for the DX Real Estate Value Improvement is not shown because it exceeds 1,000%.

1) DX New Real Estate

Sales in the first quarter of 2025 in this segment increased by 156.4% year on year to 2,152 million yen, and segment profit increased to 691 million yen, compared with profit of 4 million yen one year earlier. This was primarily driven by sale of the income-producing development category “A*G Shimokitazawa.”

2) DX Revitalized Real Estate

Sales in the first quarter of 2025 in this segment decreased by 63.4% year on year to 2,459 million yen, and segment profit decreased by 69.7% to 316 million yen. The Premium Renovation series of high-end condominiums accounted for a large share of sales and earnings.

3) DX Real Estate Value Improvement

Sales in the first quarter of 2025 in this segment were 3,466 million yen, compared with 50 million yen one year earlier, and segment profit was 314 million yen, compared with a loss of 4 million yen one year earlier. This was mainly due to the completion of a land value improvement project.

4) Real Estate Leasing

Sales in the first quarter of 2025 in this segment increased by 9.7% year on year to 254 million yen, and segment profit increased by 22.4% to 122 million yen. This was mainly due to stable operations at the leased healthcare facilities and other properties owned.

Note: Segment profit (loss) is the segment gross profit minus the segment selling expenses and non-operating expenses.

(2) Financial Position

Assets totaled 78,424 million yen at the end of the first quarter of 2025, an increase of 7,176 million yen from the end of 2024. This change included a decrease of 3,812 million yen in cash and deposits and increases of 6,922 million yen in real estate for sale and 3,203 million yen in real estate for sale in process.

Liabilities totaled 60,795 million yen at the end of the first quarter of 2025, an increase of 7,679 million yen from the end of 2024. This change included a decrease of 1,722 million yen in income taxes payable and increases of 1,091 million yen in accounts trade payable and 8,052 million yen in the current portion of long-term borrowings.

Net assets totaled 17,628 million yen at the end of the first quarter of 2025, a decrease of 502 million yen from the end of 2024. This change included profit attributable to owners of parent of 673 million yen, a decrease of 1,798 million yen in capital surplus due to dividend payments and a decrease of 434 million yen in treasury shares due to exercise of share acquisition rights.

(3) Explanation of Consolidated Forecasts and Other Forward-looking Statements

The LA Holdings Group recognizes revenue when the ownership of a project is transferred to a buyer. The size of projects and timing of these transfers of ownership vary each year, resulting in fluctuations in sales and earnings from quarter to quarter. First quarter performance was low in relation to the forecast for 2025. However, real estate for sale and other components of inventory totaled about 57,400 million yen at the end of the first quarter of 2025, which we believe is sufficient to achieve sales and earnings consistent with the forecast for 2025. We expect sales and earnings to be in line with the 2025 forecast as progress continues as planned at projects that are to be sold during the last three quarters of 2025. Consequently, there are no revisions to the 2025 forecast that was announced on February 14, 2025 with results of operations for 2024.

In prior years, LA Holdings paid only a year-end dividend. Due to progress in strengthening business operations and financial soundness, the decision has been made to start paying an interim dividend as a way to provide another opportunity to distribute earnings to shareholders. There is no change to the current annual dividend forecast of 330.00 yen per share for 2025. More information is in the press release dated March 28, 2025, (Japanese version only) titled “Notice of Start of Interim Dividend and Dividend Forecast Revision.”

(3) Notes to Quarterly Consolidated Financial Statements

(Changes in Accounting Policies)

The Accounting Standard for Current Income Taxes, etc. (Accounting Standards Board of Japan (ASBJ) Statement No. 27, October 28, 2022; hereinafter referred to as the “Revised Accounting Standard 2022”) and others have been applied from the beginning of the first quarter of 2025. The amendment to categories in which current income taxes should be recorded (taxes on other comprehensive income) follows the transitional treatment prescribed in the proviso of paragraph 20-3 of the Revised Accounting Standard 2022 and the transitional treatment prescribed in the proviso (2) of paragraph 65-2 of the Implementation Guidance on Tax Effect Accounting (ASBJ Guidance No. 28, October 28, 2022; hereinafter the “Revised Implementation Guidance 2022”). This change in accounting policies has no impact on the quarterly consolidated financial statements.

For the amendment related to the revised accounting treatment for consolidated financial statements when gains or losses on sale of shares in subsidiaries resulting from transactions between consolidated companies were deferred for tax purposes, the Revised Implementation Guidance 2022 has been applied from the beginning of the first quarter of 2025. This change in accounting policies was applied retrospectively. Hence, the quarterly consolidated financial statements and the consolidated financial statements for the previous fiscal year are after retrospective application. This change in accounting policies has no impact on the quarterly consolidated financial statements and the consolidated financial statements for the previous fiscal year.

3. Matters related to changes in reportable segment

Change in segment classification

In previous years, there were three reportable segments: New Real Estate, Revitalized Real Estate and Real Estate Leasing. Beginning in the first quarter of 2025, business operations are divided into four reportable segments: DX New Real Estate, DX Revitalized Real Estate, DX Real Estate Value Improvement and Real Estate Leasing.

The LA Group has declared 2025 as a new phase of accelerated growth and is using numerous initiatives to accomplish this goal. The DX Real Estate Value Improvement business has been added as a new separate reportable segment because of the growing scale of business operations involving the planning and sales of land, which was previously included in the former New Real Estate segment, and investment project operations, which were previously included in the former Revitalized Real Estate segment. Other revisions were also made for the purpose of using segments that more accurately reflect business operations.

The segment information for the first quarter of 2024 has been restated in the reportable segments after the revisions.

4. Information related to impairment of non-current assets, goodwill, etc. for each reportable segment.

2. Reason for acquisition and cancelation of rights

As was announced on August 9, 2024, in a press release titled “Notice of Third-party Allotment of 15th and 16th Share Acquisition Rights (with fixed exercise price),” LA Holdings issued these share acquisition rights on August 26, 2024, and sold the rights by using a third-party allotment. As of May 14, 2025, none of the 16th share acquisition rights had been exercised. The exercise of all 15th share acquisition rights was completed on March 25, 2025, resulting in total proceeds of 600,000,000 yen.

As was announced on August 9, 2024, LA Holdings has the goal of sustained growth accompanied by the steady growth of sales and earnings and the scale of business operations. Achieving this growth will require using M&A or strategic alliances. Consequently, LA Holdings plans to make substantial investments for M&A deals and strategic alliances to expand the scale of operations and growing consistently. These investments will target companies that have significant potential synergies with the LA Group and companies where business growth can contribute to the economic vitality of the regions where they operate. There have been no revisions to this goal and the measures needed to achieve it. Furthermore, there is no change in the plan to use funds procured from the course of the 15th and 16th to share acquisition rights for investments for growth involving M&A and strategic alliances.

The price of LA Holdings stock has remained above the 6,600-yen exercise price of the 16th share acquisition rights. Due to the relatively impressive performance of the stock, LA Holdings has determined that it is possible to wait for Macquarie Bank to exercise these rights. LA Holdings expects to have many opportunities for investments in companies with excellent prospects for synergies with the LA Group and the ability to contribute to the economic vitality of the regions where they operate. Currently, studies and negotiations are under way concerning several investments. As a result, there is a need for LA Holdings to restructure its financial and capital strategies. Based on current market conditions and other considerations, LA Holdings reached the decision to stop procuring funds from the exercise of the 16th share acquisition rights in order to place priority on determining fund procurement methods that are better suited to supporting the LA Group’s growth strategy. LA Holdings believes that this decision is also in the best interests of current shareholders.

As a result, the conditions for the acquisition of the 16th share acquisition rights, as stipulated in the issuance terms, have been met. Consequently, LA Holdings has determined to acquire and cancel all remaining rights as provided for in Article 273-1 and Article 274-1 of the Companies Act and in the terms for these rights (Paragraph 14 of the issuing terms).

3. Date of acquisition and retirement

May 19, 2025 (tentative)

4. Outlook

The acquisition and cancelation of these share acquisition rights will have a negligible effect on the consolidated financial statements.

There is no change in the LA Group’s plan to make substantial investments for growth that involve M&A deals and strategic alliances. If there is a need to procure additional funds for an M&A deal or strategic alliance, we will consider a variety of procurement methods, including the use of loans or capital markets, and make decisions based on the cost of procurement, market conditions and other factors.
