## 1. Overview of Results of Operations, etc.

### (1) Results of Operations

In the first nine months of the current fiscal year, the Japanese economy continued to recover at a moderate pace backed by improvements in the labor market and personal income. The outlook for the economy remains uncertain because of instability in many areas of the world, U.S. trade policy, and the firm defensive stance of consumers, including a strong desire to economize, as inflation continues.

Due to the measures of the AOKI Holdings Group explained in the following sections, net sales increased 1.5% from one year earlier to 131,343 million yen, operating profit decreased 5.4% to 7,105 million yen and ordinary profit decreased 2.2% to 6,760 million yen. Profit attributable to owners of parent decreased 18.4% to 3,749 million yen.

Business segment performance was as follows.

#### Fashion Business

AOKI stores used numerous measures to expand lineups of business and casual apparel to reflect the increasing diversity of the ways customers do their jobs and the changes in life styles of customers. Merchandise strategies targeted customers' needs with activities that include "Kimawashi Cross Suits," versatile suits for a mix-and-match business and casual style, and other apparel centered on the workplace apparel theme of "SUITing." For the MeWORK line of functional apparel for women, there were many activities to develop a variety of innovative items with attractive silhouettes and outstanding comfort that are suitable for use for work and at other times. ORIHICA continues to open new stores systematically to increase its market share and raise its brand awareness. Actions include a new small store format for only men's apparel and the first store in Kumamoto prefecture. ORIHICA added 19 stores during the first nine months. To improve efficiency, three AOKI stores and six ORIHICA stores were closed. As a result, the number of stores increased from 603 at the end of the previous fiscal year to 613 at the end of the first nine months.

Due to these activities, sales of casual apparel increased, sales were firm at existing locations and expenses for opening new stores were higher. Sales in this segment increased 1.4% to 62,815 million yen and there was an operating loss of 165 million yen compared with a profit of 983 million yen one year earlier.

#### Entertainment Business

KAIKATSU CLUB café complexes continued to add private rooms with locks. Activities to bring in more customers and raise sales per customers include Yaki-Curry, a popular winter item, Kaikatsu Special Spaghetti and other menu items and a student discount marketing campaign. COTE D'AZUR karaoke stores also continued to upgrade and expand food and beverage menus selections. Additions include a new Matsusaka beef flavor version of the popular Kin-no Potato series. Another step to attract an even broader range of customers was a special party package offered during the year-end and new year party season. FiT24 24-hour self-service fitness centers added a support system that allows even first-time users to start a training program with confidence. These centers also installed new machines, stepped up measures to ensure proper behavior and used other measures to provide an even better fitness center environment for customers. During the first nine months, KAIKATSU CLUB opened 19 cafés, COTE D'AZUR opened one karaoke facility and FiT24 opened one fitness center. Five KAIKATSU CLUB cafés, five FiT24 fitness centers and two COTE D'AZUR karaoke facilities were closed due to measures to improve efficiency. As a result, including the 80 JIYU KUKAN café complexes and other locations of RUNSYSTEM (including 47 franchised stores), the number of locations in this business increased from 768 at the end of the previous fiscal year to 775 at the end of the first nine months.

Segment sales and earnings increased as these measures generated firm sales at existing locations. Sales in this segment increased 0.6% to 57,856 million yen and operating profit increased 12.5% to 6,390 million yen.

#### Anniversaire and Bridal Business

This business is continuing to strengthen activities to receive orders and aiming to raise sales per couple with measures such as the new Diamond Series of premium wedding gowns. To raise the utilization of the locations of this business, there are many sales activities to receive orders from companies for exhibitions, parties and other

events. Anniversaire caf s held a Christmas event for a limited time that featured a special set menu and new dessert selections to boost customer traffic.

As a result of these activities, the number of weddings and sales per couple increased mainly at the flagship ANNIVERSAIRE Omotesando location and the ANNIVERSAIRE Minato Mirai Yokohama location. Sales in this segment increased 7.4% to 8,987 million yen and operating profit increased 68.0% to 549 million yen.

### **Real Estate Leasing Business**

Segment sales increased 4.6% to 5,356 million yen and operating profit decreased 0.1% to 1,186 million yen mainly because of the leasing of idle space of the AOKI Group's stores and an increase in the cost of some subleasing stores and other facilities.

## **(2) Financial Position**

### **Balance sheet position**

#### **Assets**

Total assets at the end of the third quarter decreased 18,527 million yen from the end of the previous fiscal year to 214,448 million yen due to seasonal and other factors.

Current assets decreased 19,295 million yen mainly due to decreases of 16,162 million yen in cash and deposits and 6,273 million yen in accounts receivable-trade caused by seasonal and other factors, while there was an increase of 2,352 million yen in inventories resulting from an increase in procurement. Non-current assets increased 767 million yen mainly due to increases of 1,288 million yen in property, plant and equipment due to new store openings and other activities, and 427 million yen in intangible assets, while there was a decrease of 1,028 million yen in other investment and other assets including deferred tax assets.

#### **Liabilities**

Current liabilities decreased 5,369 million yen from the end of the previous fiscal year. There were decreases of 4,475 million yen in accounts payable-trade due to seasonal and other factors, 1,743 million yen in accrued income taxes due to the payment of income taxes and 2,438 million yen in provision for bonuses due to the payment of bonuses, while there were proceeds from short-term borrowings of 2,000 million yen. Non-current liabilities decreased 9,990 million yen due to a decrease of 10,670 million yen in long-term borrowings for scheduled repayments.

#### **Net assets**

Net assets decreased 3,167 million yen from the end of the previous fiscal year. Retained earnings decreased 2,979 million yen due to a profit attributable to owners of parent and dividend from surplus.

## **(3) Explanation of Consolidated Forecast and Other Forward-looking Statements**

During the first nine months, lingering summer heat and warm winter had a negative effect on some operations of the Fashion Business and sales and earnings of all other businesses were generally firm. After three quarters, sales and earnings are generally consistent with the fiscal year forecast.

There are no revisions to the fiscal year forecast for sales and earnings that was announced on November 7, 2025. The increase in prices of raw materials and other items is slowing down. However, there may be a significant change in sales and earnings due to the effects of continued inflation on consumer spending and the level of sales in some market categories of the Fashion Business in the fourth quarter, such as the "freshers" category of apparel for young people starting college or their first jobs.
